

# WILSON IS STILL OPPOSED TO ARTICLE TEN CHANGE

President Makes No Move To Grant Request of Simmons For Conference On Reservations.

## SENATORS DISAPPOINTED

Had Conferred With Glass Two Weeks Ago and At that Time Had Not Changed Attitude

White House Officials Statement Discourages Many Senators.

(By Associated Press.)

Washington, March 6.—White House officials in discussing today the move of administration senators to arrange a conference with President Wilson to discuss the peace treaty situation, said the president had told Senator Glass, of Virginia, two weeks ago what his attitude was toward a compromise on the Article Ten reservation.

It was said there has been no decision as to whether the president would see the senators in response to the request of Senator Hitchcock, administration leader.

Some administration officials suggested that instead of Senator Simmons, democrat of North Carolina, and others, endeavoring to persuade the president to accept the Article Ten compromise which some democratic and republican senators are now trying to work out, they should give their efforts toward persuading Senator Lodge to accept it.

In his talk with Senator Glass the president is understood to have reiterated his opposition to any reservation on Article Ten which would invalidate the obligations of the United States under that article.

The president's attitude toward further conferences with democrats was learned with disappointment by senators of both sides who have been working for compromise. It was said negotiations would continue but many senators predicted that if Mr. Wilson declined to consider further compromise proposals, the hope of ratification would be greatly diminished.

## ITALIAN CLAIMS ARE REJECTED BY COLORADO

(By Associated Press.)

Denver, Colo., March 6.—Rejection in entirety of the claims of the Italian government for \$51,000 arising from loss of life in the Ludlow strike in Colorado in 1914, was recommended to Governor Shoup in a report submitted today by the Colorado Legislature Board of Inquiry.

A copy of the report will be sent to the state department at once. Several Italians were killed by troops.

## PLAN TO EXTEND HUGE CREDIT

(By Associated Press.)

Washington, March 6.—A resolution authorizing the United States Grain Corporation to sell five million barrels of soft wheat flour to needy European countries on credit, was approved today by the House Ways and Means Committee and it will be offered as a substitute for the Treasury Department proposal that loans of fifty million dollars be made to Austria, Poland and Armenia for food relief.

Allied Premiers Continue Work Of Framing The Turkish Settlement.

(By Associated Press.)

London, March 6.—There is likelihood that the Cilician massacres will cost Turkey much of what the treaty of peace would otherwise have left her, according to expressions heard in inner circles at Whitehall, where Allied foreign ministers continue framing the Turkish settlement.

## CABINET QUILTS IN PORTUGAL

(By Associated Press.)

London, March 6.—The Portuguese cabinet has resigned after defeat of the government on a vote of confidence in the chamber. Former minister of public works, Sylvia, has formed a new cabinet.

The various reports on Portuguese conditions received today seem to dispose of the rumors that there had been a revolutionary overturn with establishment of a soviet.

## JAPS TO HOLD VLADIVOSTOK

(By Associated Press.)

Washington, March 6.—Although planning to withdraw the bulk of her troops from Siberia, Japan will not relinquish control of Vladivostok and vicinity, the Chinese Eastern Railway and the strategic railroad junction in the trans-Biakal region, according to official information today.

## COMPLETE BAR ROOM IS FOUND

(By Associated Press.)

Cleveland, O., March 6.—A complete bar room with large quantities of liquor and an underground passage leading to whisky, beer and other liquors valued at \$80,000 were unearthed by police and federal agents in a raid early today at the home of Mrs. Julia Yurick.

## RACE FOLLOWER DIES IN DAYTON

(By Associated Press.)

Dayton, O., March 6.—Charles "Daddy" Roberts, who won and lost several fortunes on the turf, is dead here at the age of 55. Friends are trying to raise money to bury him. At one time he was one of the largest owners and trainers of race horses.

## PRINCIPALS IN THE FIRST DRY "REVOLUTION"

Group shows, left to right, Police Captain Claude Brown, Sheriff Robert Wilson, District Attorney Martin McDonough, Police Chief C. H. Sensiba, Deputy Sheriff John Cherd and Under Sheriff Jess E. Allen. Inset shows Major A. V. Dalrymple, at left, and Leo J. Grove, his assistant.

With the withdrawal of Major A. V. Dalrymple, federal prohibition agent, and his forces from the Iron River, Mich., territory without taking any action the local forces in the dr. "revolt" are claiming a victory. The revolt started when District Attorney Martin McDonough and police and

county "Mc" took into custody dry workers who had confiscated stocks of liquor, charging them with equally t. sweetening liquor. Major Dalrymple rushed to the scene from Washington with a squad of men, fully armed after announcing that he was going to "clean out Iron River and every-

body in it." McDonough had difficulty in restraining the citizens of the Iron River district from meeting the force half way with shotguns. After confiscating several barrels of red wine and dumping them into the snow while a movie camera whirled, Major Dalrymple left the district with his men.

## WILSON REPLY NOT TAKEN UP BY PREMIERS

Wilson Said To Accept Plan Of Direct Negotiations

No Further Indication of Withdrawing From European Affairs.

(By Associated Press.)

Paris, March 6.—President Wilson's reply to the note sent by him to the allied premiers relative to the Adriatic was not discussed by the Supreme Allied Council at London yesterday, because of obscurities in the text, says "Pertinax" in the Echo De Paris.

As far as can be ascertained, he says, the president does not show any desire to withdraw from European affairs and accepts the French and British suggestions that efforts be made to reach a direct understanding between Italy and Jugo-Slavia relative to the Adriatic.

## TO GET NEWS BY WIRELESS

(By Associated Press.)

Cleveland, O., March 6.—The first actual attempt to gather news by wireless from all parts of the United States will be put into operation here during the Cleveland Electrical Show, March 10 to 20.

A huge wireless station capable of receiving messages from across the ocean has been set up. Amateurs everywhere are asked to send 50 word news bulletins to the station during nine in the morning and midnight.

Secretary of War Says Sixty-Nine Vessels Must be Constructed if League is Ignored

### WAITS FOR CONGRESS

Says Every Nation in League Must be Pledged to Help Preserve Peace by United Action.

(By Associated Press.)

Washington, March 6.—Secretary Daniels told the House Naval committee today that he would recommend a naval building program for the next fiscal year larger than that proposed by the general board "if the peace treaty is not ratified at this session of congress."

Withholding final recommendation the secretary added that if this country rejected membership in the league of nations he would feel impelled to make his recommendation for another three-year program of construction.

Reiterating his previous statement that "we must have a league of nations by which every nation will help preserve the peace of the world without competitive naval building or we must have incomparably the biggest navy in the world." Mr. Daniels declared there was "no middle ground." Unless there is a league of nations or if the United States decides to stay out, he said, he would recommend a building program calling for the construction of 69 ships.

### TWO KILLED IN ACCIDENTS

Dayton, March 6.—John C. Miller, aged 79, was instantly killed by a Baltimore & Ohio passenger train while walking along the railroad track south of Dayton. Robert E. Floyd, aged 27, was so badly injured he died shortly after his automobile was struck by another machine.

## MINERS DEFEAT RESOLUTION OF CONDEMNATION

Overwhelming Vote Puts End To Measure Presented To Convention.

Pomerene Condemned for Utterances Regarding The Miners.

(By Associated Press.)

Columbus, O., March 6.—By an overwhelming vote, the Ohio miners' convention late yesterday defeated a resolution to condemn the republican and democratic parties and to support candidates of the new National Labor Party.

The resolution was offered by G. W. Eubanks, who said he had jumped from one party to another and wanted to try the labor party now.

The convention went on record as favoring a proposal submitted to instruct congressmen on various issues by referendum vote in the districts.

It was also decided to start and initiate petition for an old age pension in Ohio. Resolutions were adopted condemning Senator Pomerene for his public utterances in regard to miners in their recent strike.

## EXPRESS MEN OUT ON STRIKE

(By Associated Press.)

Chicago, March 6.—Express workers in down town railroad stations, variously estimated at 500 to 2600, walked out this morning asking increased wages. All deliveries of express to and from stations have stopped. Other express unions declared the strike was an outlaw strike.

## AMERICAN AVIATION DURING WAR IS SCORED

Committee Agrees Upon Only One Thing — That Aviation Cost Over Billion Dollars

### DIVIDE ON PARTY LINES

Republicans Picture Effort As Complete Failure

(By Associated Press.)

Washington, March 6.—Flatly opposed views of America's aviation accomplishments during the war were expressed today during a four-hour session in the house devoted entirely to discussion of the divergent reports arising from prolonged investigation of aviation matters by a special war expenditures committee. The committee, dividing on political lines, agreed on only one thing—that the United States spent more than one billion dollars on the wartime aviation program.

Republican committeemen pictured a "notorious failure" by the war department in getting American made planes to the battle front. The democratic committeemen—Representative Lea, of California—amplified his minority report charging that the net results outlined by the majority were an exaggeration and not a true statement of accomplishments.

## BLIZZARD HITS NEW YORK CITY ON SATURDAY

High Winds and Sleet Cause Damage and Halt Transportation.

Temperature Takes A Hurried Drop.

(By Associated Press.)

New York, March 6.—The storm king paid another unwelcome visit to New York today, and within 12 hours the metropolis struggled with a pelting rain and driving sleet storm and a biting snow.

The temperature dropped steadily, and the wind today reached a velocity of 60 miles an hour, which bodes ill for shipping along the coast.

The sleet made a successful attack on the transportation system. Great damage was done in the skyscraper district by the rising wind, signs being loosened and chimneys toppling over here and there, doing considerable damage to shops.

### RAIL TRAFFIC HALTED

Trolley, Telegraph and Telephone Service Are Badly Crippled.

Scores of Houses and Bridges Washed Away by Swollen Streams.

(By Associated Press.)

Philadelphia, March 6.—Freezing temperatures, which came on the heels of a raging snow, wind and rain storm, were expected today to check the floods which last night broke over eastern Pennsylvania and Delaware, causing heavy damage and driving many persons from their homes. The storm was the most severe of the winter.

Driven by a strong northwest gale, the snow piled up in big drifts and brought the trolley service here to a standstill.

Virtually every stream in this section overflowed its banks yesterday, and ice gorges, broken by the high water, swept away bridges and railroad tracks.

Telegraph and telephone service was out of commission today in many places, and many cities were in darkness last night by the flooding of power plants. Trolley service was badly crippled everywhere.

Scores of houses along the banks of the swollen streams were washed away, and many mills and factories had to shut down because of flooded boiler rooms. Men, women and children marooned in their homes were rescued in boats, many of them from second story windows.

Towns along the Schuylkill and Susquehanna rivers were the heaviest sufferers. Reading, Lancaster, Harrisburg, Williamsport, Wilkesbarre, reported great damage. Parts of all the towns were in undated and much surrounding territory was under water. All of them were without transportation.

## \$450,000 FIRE IN CINCINNATI

(By Associated Press.)

Cincinnati, O., March 6.—Fire destroyed all but the office building of the Elmwood Casting Co. plant in St. Bernard early today at a loss to the plant of \$250,000 and to owners of patterns in work thereof \$200,000.

Wilmington Girls Easily De-  
feat Washington and Sen-  
iors Beat Sophomores.

In a bitterly contested game that was filled with personal fouls by the players of both teams Washington High School won from Wilmington High on the local floor Friday evening 23 to 10. During the first quarter it looked like a sure loss to the Washington lads but insubling "Red" Dera into the lineup ten minutes after play had started turned the tide of victory and the lead was soon taken by the Blue and White warriors.

Sickness has so crippled the Washington team that toward the end of the game when Laughlin was removed from the scene of action because of personal fouls Walter Weaver, who made a name for himself on the gridiron but playing his first varsity game on the basket ball floor went in and romped around the guard position in veteran style.

Willard Perrill, after an absence from the varsity game stepped in at guard and played a fast game. He fought for the ball every play and was in some of the best passwork. Lawrence Laughlin played his usual brilliant guard and his man was never dangerous. Geiger led his team with five field goals and three fouls.

**GIRLS GAME**

Varsity basket ball girls of Washington High were not so fortunate as their brother and were defeated by the almost champion Wilmington girls 10 to 4.

The girls Varsity made one of the best showings against the visitors that was ever witnessed against the Wilmington girls and except in the first quarter, when Wilmington made three field goals had their opponents outclassed. Washington made two field goals; Miss Maxine Kibbler made the first when she threw one in from the center guard line and Miss Helen Kearney, a Freshman but a capable player, the other basket in the second half. Miss Brannen and Miss Johnson scored the points for the victors.

The lineup:  
Washington—Maxine Kibbler, lf; Helen Kearney, rf; Bernadine Norris, 1st center; Anna Lee McFadden, 2nd center; Dorothy Dick, lg; Christine Meier, rg.

Wilmington—Johnson, lf; Brannen, rf; West 1st center; Browning, 2nd center; Winkle, lg; Peele, lg.

**"THE CYCLONE" THRILLS AT THE COLONIAL**

"The Cyclone," a stirring tale of the rugged Northwest, with Tom Mix starring, is the week end attraction at the Colonial—shown for the last time Saturday night.

It is an absorbing story of the days when a Northwest Mounted Policeman's life wasn't worth a cent. Tom Mix, as the Mounted Police Sergeant, who got both his man and the girl of his heart, keeps adventurous action pitched to the highest point. He knocks all previous dare devil records; plunges through four stories on horseback, rescues three drowning girls, and lives up to his nickname, "Whirlwind of the Film," the most daring of cowboy actors.

**COAL PRIORITY ESTABLISHED BY GENERAL HINES**

Washington, March 6.—A coal shortage estimated to be in the neighborhood of 50,000,000 tons resulted last night in the complete re-establishment of preferential lists by Director General of Railways Walker D. Hines.

Acting under the powers conferred upon him by the President under executive orders issued February 28 and Friday Director Hines ordered that all producers and shippers give preference in the shipment of bituminous coal as follows:

1. Railroads.
2. Army and navy, together with other departments of the Federal Government.
3. State and county departments and institutions.
4. Public utilities.
5. Retail dealers.

After this preferential list, manufacturers engaged in turning out necessities are to be allowed coal.

## LIBERTY BONDS OF GOTHERMAN ARE NOT FOUND

*Belief Grows That James  
Gotherman, of Highland  
County, Was Murdered.*

*Youngest Son Predicted No  
Bonds Would be Found in  
Safety Deposit Box.*

Mystery still surrounds the death of  
James Gotherman, whose body was  
found in a bed at his home in High-  
land county, a few days ago, with a  
bullet hole through the head and an  
automatic pistol clamped in the hand.  
The mystery still survives regardless  
of the coroner's verdict that the man  
died by his own hand.

Suspicion that the man was murder-  
ed is due largely to the fact that  
\$15,000 to \$20,000 in Liberty Bonds

had been purchased by him, and so  
far have not been found.

Concerning the latest phase of the  
case the Hillsboro Dispatch says:

"It is said that he also repeatedly  
made the statement that he wanted  
to get away from this community as  
he was fearful that his life would be  
taken. He especially seemed to be  
afraid that he would be poisoned  
and he had covered the well at his  
place with a shelter locked with a  
padlock and frequently went to his  
neighbors' for drinking water. Of  
course all of these ideas were hallu-  
cinations and emphasized his eccen-  
tricities.

"Mr. Gotherman's safety deposit  
box at the Hillsboro Bank & Savings  
company was opened Tuesday after-  
noon in the presence of the President  
of the bank, Mr. J. W. Evans; Audi-  
tor J. S. Kerns and the younger son  
of Mr. Gotherman. In it were two  
box rent receipts and some papers of  
no value. It is known that Mr. Goth-  
erman purchased from \$15,000 to  
\$20,000 of Liberty Bonds last year  
but so far, no trace of them can be  
found. This is the fact upon which  
many still base their belief that Mr.  
Gotherman was murdered and robbed.  
It is said that the younger son pre-

dicted that the bonds would not be  
found in the safety deposit box, as  
he understood that his father carried  
the bonds with him. Russell, the old-  
er son, also told the officers that he  
had the number of all the Liberty  
Bonds that his father had last fall,  
when he was visiting him. In the  
event that the old man was murdered  
and robbed, if the bonds were sold or  
the coupons cashed, it may be possi-  
ble to trace them through the num-  
bers."

## KILLS NEPHEW BURNS HIS BODY

Mr. and Mrs. J. B. Zook of Grand  
avenue have received word of the  
death of their cousin, David Rich-  
ardson, 40, at Randels Station, Co-  
hocton county, which occurred Wed-  
nesday night. Mr. Zook left for the  
Richardson home at once where he  
attended the funeral services Friday  
afternoon.

Richardson and his uncle, Raleigh  
Richardson, according to Cochocton  
papers, were sleeping in a small house  
and the elder Richardson, after a  
quarrel with his nephew waited until  
the young man was asleep, then  
arose and securing a shotgun, killed  
the young man, later setting fire to  
the house to conceal his crime. Con-  
fession was made after the authori-  
ties had made an investigation.

The body of the murdered man was  
burned to a charred mass.

## SPRING PRACTICE FOR FOOTBALL MEN

As soon as the weather will permit  
aspirants of next year's gridiron team  
of Washington High School will in-  
dulge in spring foot ball practice if  
present plans of Coach Charles Moore-  
head work out satisfactorily. One of  
the purposes of the spring practice  
will be to acquaint the new men with  
the fundamentals of the game so that  
when they enter school next fall they  
will be able to practice steadily with  
a full knowledge of the rules and  
manner of playing the position that  
they expect to fill.

Spring practice has not been held  
in the high school for some years and  
it will be practically an innovation to  
local athletes.

must obtain a license to do business  
in this state before May 1, if they  
have not already done so. The Sparks  
hotel law, which was passed more

Franklin county courts recently, has  
been corrected by the legislature and  
instead of applying only to hotels and  
restaurants in cities of 25,000 popu-  
lation or over, it now applies to hotels  
and restaurants in all villages regard-  
less of size.

## MARVEL AND BOWSER SOON MAY COME

Two headliners in the wrestling  
game may be seen in action on Tues-  
day evening, March 23rd, because of  
the fact that previous arrangements  
have been cancelled. Thor Olson,  
athletic instructor at Athens Univer-  
sity has wired Promotor Bell of this  
city that it will be impossible to fill  
an engagement on the evening of the  
23rd.

Bell immediately got busy and wired  
Paul Bowser if it would be agree-  
able to him if the Masked Marvel  
were substituted for Olson; Bowser  
wired back that every thing was O. K.  
at that end of the line. The Masked  
Marvel had expressed a willingness  
to meet any wrestler.

Fans in this city are desirous of see-  
ing two such mat men go to a finish  
as Henderson of Pittsburg, the origi-  
nal masked marvel, and Bowser  
who has made two good showings  
here.

the many won by Overland 4's during a 250,000-mile test over all  
kinds of roads.

The three-point suspension **Triplex** Springs swung this sturdy  
car over the rocky trails with a buoyant ease that was amazing.  
They brought passengers through with *acushioned comfort* that  
knew little fatigue. Both car and motor were preserved from  
slightest damage.

This harsh test in nature's laboratory confirmed the no less  
exacting tests of science in our factories. No owner will ever sub-  
ject his car to such a trial but he has the assurance that the *comfort*

## FLU IS NEARLY THING OF PAST

Reports indicate that influenza is  
no longer epidemic in this city and  
county, and that outside of a compara-  
tively small number of cases, widely  
scattered, the disease has virtually  
passed and is not expected to reoc-  
cur this winter or spring.

Health conditions of the city gen-  
erally are very satisfactory, and  
above the usual at this period of the

## Speed Up Building

The necessity for speeding up the building of houses in this community is being increasingly realized—especially with the approach of spring and the influx of new families which this season is expected to bring—family accommodations are needed everywhere. Statistics which have been carefully collected report the need of hundreds of thousands of houses in the United States.

Whether or not Washington's need is as great as that of other cities of its size, and we believe that it is equally if not more so, we do know that the lack of houses for rent is distressing—applicants simply besiege the owner of any residence property when it is known that the house is to be vacated. During a short time during which one local house owner had a house to rent, he was visited by more than a hundred applicants.

If there is any one line of industry which should be expanded rather than curtailed, it is that branch of building which is concerned with the erection of dwellings. There was practically an embargo on house building during the war, chiefly that the construction essential to the success of the war might go on.

Referring to the deflation of credits being sought by the Federal Reserve Board through the banks of the system, which must of necessity entail contraction of business, the Cincinnati Enquirer says with much timeliness:

"It is true that all kinds of building material and construction labor is high—higher than ever before known. Yet permits for new construction are many times greater in number and in value than a year ago. But they are to a great extent for industrial extensions and for houses of the more expensive kind, for which the funds are easily provided. The need is for houses of modest types, the erection of which is held back by the high cost of every kind of material, and which is postponing the financing and launching of numerous projects pending in this and other markets. How the work may be encouraged without embarrassing the well-intentioned efforts to bring about a contraction of over-extended credit, is a problem requiring the serious consideration of the Federal Reserve Board and all of the associated banks.

"There are millions of dollars worth of construction under way and projected by great industries badly in need of the improvements contemplated that should not be interfered with. Despite the great cost of materials, contractors for this work are paying the prices demanded and offering premiums for preferred deliveries. But the erection of houses suitable for persons of modest incomes calls for low costs to make reasonable rents possible. It is this work that the movement inaugurated by the League of Building Associations is designed to assist and to carry out which the league should have every possible help and encouragement."

Business men of Washington are now being called together to give attention to this matter—of seeing that Washington people are properly housed—a thing which will go far to insure the growth of our city.

## The "White Collar" Poor.

A bulletin just issued by the United States department of labor reveals that the average union wage scales per hour in the general trades of 1919 were 55 per cent. higher than in 1913; 17 per cent. higher than in 1918 and 72 per cent. higher than in 1907. The percentage is based upon minimum rates and it is pointed out that "the average wage received by union men to a greater or less extent exceeds the prevailing union rate." The statistics are compiled from a review of wages in the bakery, building, stone, metal, mill, woodwork and printing trades, chauffeurs, teamsters, freight handlers, laundry workers, theatre hands and waiters. In some other lines of production the wage advances have been much greater.

Such a review must be highly gratifying to artisans. But there is one group of the citizenry to whom it brings no comparable pleasure. The "white collar poor" will be led merely to consider the irony of their lot. They are the 4,000,000 workers in clerical occupations and in professional services—clerks, salespeople, teachers, bookkeepers and smaller retailers.

The "new poor", they are called by some. And, indeed, they are. They are the erstwhile "middle class," so called because they work with their brains rather than with their hands, and once aspired to property and to the better things in life. That was in the days before the high cost of existence swept over the world. Because in general they had maintained a higher standard of living than the craftsman, the "middle-class" folks were the first to feel the pinch of cheapened money. They have been last to get relief.

A great deal is being said these days about the demands and needs of the "workers," meaning the unionized craftsmen. But only here and there is a voice raised for those who need it most.

## POETRY FOR TODAY

### ON WINDY NIGHTS

The stars are so white and the sky is so still,  
But the wild wind shakes my window sill.  
He wants to break into my dreams and shout,  
But I know a way to keep him out.  
The swallows came and showed it to me  
When it was April—and I was three.  
So I've picked up cotton and string from the floor.  
And there was a pile by the nursery door  
Our carpenter left the other day  
Of shavings that I have put away.  
So, just as soon as Mother sings  
About the bag that the Sandman brings  
I'm going to get right up and pack  
Those bird-nest things in every crack.  
Till the window is just so nice and tight  
That it won't be able to rattle at night  
Then the noisy wind can't reach my bed,  
And I'll go and dream of the fairies instead.

## PRINCE EUIWHA WAS KIDNAPPED

Seoul, Korea, Feb. 15.—(By Mail)—Prince Euiwha of Korea, who recently was arrested by the Japanese as he was crossing the Manchurian border, did not attempt to escape from Korea but was kidnapped by Korean revolutionists who were taking him to Shanghai, according to the Japanese official version of the incident.

The Prince, who formerly was reported to be engaged to an American girl, has since his capture been confined to his palace at Seoul while the government deliberated upon steps to be taken against him. It was first believed that he had attempted to escape. The story reads like a court conspiracy of medieval Korea or China. The Prince had been closely watched by the Japanese who suspected him of favoring Korean independence. The Japanese say that he was lured to an empty house by members of a secret organization known as the Dai Tong Dan. There he was confronted by 10 armed Koreans who compelled him to start for Shanghai with them, the leader of the band of kidnapers, the Japanese say, was Zen Kyo, a well known independence leader.

The Prince was kept secluded for some time in the mountains around Seoul and then taken on board a train for the Manchurian border. On the way he was arrested with 14 other Koreans alleged to have been participants in the conspiracy.

## RANDOM NOTES

### SOCIAL : PERSONAL MENTION : CLUBS

Those in touch with Young Woman's Christian Association work visualize each time the name is spoken, a picture of hundreds and thousands of young women all over the world who are associated together, standing for the highest ideals of womanhood, for the building of Christian character, for the maintaining of the dearest womanly standards.

At the same time the letters "Y. W. C. A." stand for the gymnasium, the swimming pool, a place in which to find rest for the tired body and a chance to build up physical health; educational classes and congenial social life, with amusements and gatherings which forestall loneliness and homesickness.

It was with the double purpose of bringing to Washington C. H. and Fayette county the full meaning of the Y. W. C. A. and its immense value to a community and of giving the benefit of her wide experience in the effecting of a complete local organization, that Miss Laura M. Jones, Field Secretary for town and county Y. W. C. A. work in Ohio and West Virginia spent the past two days in this city.

Friday evening in response to a public invitation, an informal meeting was held at the Y. W. C. A. rooms and given over to a general discussion.

Mrs. Carrie Willis, President of the local Provisional Association, introduced Miss Jones, who outlined the plan of general organization. In effecting this organization, the first thing to be done is the securing of capable committees, viz. membership, publicity, finance and constitution committees.

Some time was taken up in the discussion of the personnel of these committees, but they are not yet ready for publication. It will take several weeks to be ready for a permanent organization, with a Board of from fifteen to twenty members. The purpose of the Association is four fold in its program to minister to the physical, social, intellectual and spiritual needs of young women. One of the first plans to be launched is the forming of clubs made up of groups of girls from the grade schools and high schools, of young business women or any women who are interested. These clubs will be fostered by the Association.

Miss Jones is a young woman of very pleasing personality and brought to her listeners a new sense of the obligations which members of a community should feel towards the successful establishing of such an organization of the Association's aims, needs and specific plans.

It is vital that those who direct the general policies of such an organization be in sympathy with its whole program and imbued with the desire to make it possible for girls and young women to live better and happier lives, whatever their environment.

Much is being said in these days about the duties of citizenship. What ever helps to make better daughters and sisters in the home, better students in the school, better workers in the store and office, is a big part of the Y. W. C. A. work.

In the average town the biggest need is recreation. This is one thing especially prominent in the Y. W. C. A. schedule. The Association also has

is valuable relation to the religious life and development of girls and many times to a larger problem in what is called social morality.

Those at the meeting felt their already deep interest intensified and have the utmost confidence that the local association, with the able assistance of Miss Jones in its organization and the capability already shown by the new Y. W. C. A. Secretary, Miss Charlotte Townsend, will be successfully established.

The Sons of Hoyle, already acquiring a reputation as princely entertainers again distinguished themselves Friday night, when they entertained the charming "Daughters of Mrs. Hoyle" at a dance that rivaled, in its gay pleasure and elaborate features, even those affairs formerly red lettered in their annals.

The Eagles' hall provided ample room and a smooth floor for the Sons and Daughters who merrily tripped the light fantastic to the tunes of "Darnella," "Slow and Easy" and many other popular jizzes.

Miss Mary Ellen Briggs, piano and Mr. Carey Giddings, drums, played splendidly and gave added "pop" to the dance in their snappy fox-trots.

A two course luncheon of delicious viands, in which the color scheme of green and white was prettily introduced was served at eleven o'clock.

The catering was excellently done by Chester Coble and John Stepster. Punch was on taps throughout the evening.

A most enjoyable reception was given Friday night by the membership of the Church of Christ in honor of the two score of people who united with this congregation during the recent meeting, conducted by Evangelist F. A. Sword. An interesting program was rendered consisting of speaking, readings, vocal and instrumental music.

A social session followed, after which refreshments were served consisting of cake and chocolate.

Those present pronounced this to be one of the best social gatherings which has been held and the hope was freely expressed that there may be other events of the kind planned during the year.

Admirers of Mr. Cecil Fanning the well known Columbus tenor, will be interested to learn that in company with Mr. and Mrs. Harry E. Turpin of Dayton, on April 6 he sails for London on the Carmania. He will give six recitals in Great Britain then tour the provinces of London. They will return to America early next fall.

Miss George Elasser, the beautiful young girl Georges Carpentier will marry this month, accepted the famous pugilist upon the condition that he retire from the prize ring after his fourth coming fight with Jack Dempsey for the world's championship. Miss Elasser revealed this today herself.

"I told Georges when he proposed to me that he must never fight for money after the Dempsey match, no matter whether he wins or loses it," said the fiancée. "That was the one thing I insisted upon before I consented to become Mme. Carpentier. I do not approve professional fighting."

## B. C. MACE WILL MANAGE MAPLE GROVE HOTEL

Mr. B. C. Mace, former groceryman of this city, and who has spent some fifteen years of his life in the hotel business in various cities, will be the new proprietor of Maple Grove Hotel, widely known health and summer resort in Ross county, and will open the popular hostelry to the public on May first.

Mr. Mace also is closing negotiations for purchase of stock in the Maple Grove Hotel Company, and expects to close the deal within a short time.

Mr. Mace, because of his genial personality and marked business ability, as well as previous long experience in the business, is expected to make a thorough success of the already popular Maple Grove Hotel.

Within a short time Mr. Mace will have a force of workmen engaged in making improvements and changes about the hotel, with interior and exterior decoration.

Mr. Mace will gather about him a corps of experienced helpers and give particular attention to the dining room service, which is one of the hotel's big drawing cards.

## MARY PICKFORD AVOIDS REPORTERS

Los Angeles, Cal., March 6—Mary Pickford, weeping and worn, stumbled from the train here on her return from Minden, Nev., where she obtained a divorce decree Tuesday from Owen Moore.

Miss Pickford waited until the passengers had all left the car, then peered out, and seeing newspaper men and camera men, flanked by a crowd of the curious, she fled from the opposite side of the car. As she ran, with tears streaming down her face, she stumbled and fell. Her mother helped her up and they fled to a waiting automobile and sped away.

Miss Pickford would not pause to answer the questions fired at her by eager interviewers, but her mother spoke for her.

"This is entirely a personal matter," she said, "and neither the papers nor the public have any right to be prying into it. Why can't you leave the poor little girl alone? She's nervous and broken up. Can't you see she's crying? This is just needless cruelty."

## ROLL FOUR GAMES FOR CHAMPIONSHIP

In two games bowled Friday evening the Y. M. C. A. Bowlers were easy winners in two games over the Basketball team while the Barbers took two forfeit games from the Courthouse Reds and clinched a notch towards the city championship.

The scores in the Y. M. C. A. Basketball game were: Ritter 146, 176; Belles 146, 133; Kier 185, 143; May-

## HERE IS A FARM WITH 38 SIDES

County Surveyor Collett has found a farm that has 38 sides, which breaks all records in his experience as surveyor, he states.

He has just completed surveying the Huffman land, in Adams Township, which was recently sold by Savage & Lacey to Stacey Carl. In addition to having 38 sides, it is four and one third miles around the farm and one and one-fourth mile across the farm, being one of the most peculiar shaped farms in Clinton County—Wilmington News.

## SUPERINTENDENTS FIX INSTITUTE

School superintendents of surrounding counties met with O. S. Nelson, superintendent of the schools of Fayette county, Friday, and arranged for the county teacher's institute on a chalet plan for next fall. The dates for the institutes in each county were set for August 30, 31, and September 1, 2 and 3. The plan was drawn up by Superintendent Harry Hodson of Clinton county; Superintendent W. H. Vance, of Highland county, and Superintendent F. M. Reynolds of Green county.

Instructors were elected for the institutes. Dr. W. R. McChesney, president of Cedarville College; J. J. Richardson, dean of Ohio University; James M. Matheny, of Indianapolis, Ind.; and J. Adams Puffer, educational director of the National Public Welfare Bureau, with headquarters in Kansas City, Missouri.

Four instructors are yet to be employed.

## The Modern Dairy and Contagion

One would hardly expect it, but the modern dairy, where approved methods are followed, is a valuable ally of the health authorities and a great aid to the protection of the public.

We are a modern dairy; we follow the most modern and approved methods. Every bottle is thoroughly sterilized before being filled with milk; that milk is carefully pasteurized and made untenable to disease germs.

Then, Milk coming from a modern plant like this is pure, fresh, and needs no preservatives to keep it. You are safe in using such milk.

## PROFESSOR BERRY TO SPEAK SUNDAY

Professor Berry, of Wilberforce University, will speak at the A. M. E. church in this city at three o'clock Sunday afternoon, to all persons interested in the Wilberforce extension work which may soon be established in this city.

It is expected that sufficient interest will be shown to convince the University authorities that the expense incident to the work here would not be in vain.

It is pointed out that many who were not permitted to go to the university may now have many university privileges brought to their door under the extension plan.

Courses in domestic science, dress-making, millinery, carpentry and commerce are being taught in Selma, Cedarville, Harveysburg, and Wilmington. These courses may be established here.

## SPECIAL PROGRAM TO HONOR THOMAS

A special musical program has been arranged for Sunday afternoon at three o'clock when Warden Thomas, of the Ohio State Penitentiary, speaks at the high school auditorium. Secretary Fraser of the Y. M. C. A. under whose auspices the meeting is being held, will have charge.  
The meeting will be thrown open to men and boys only.

## COAL CONSUMERS STORM YARDS

Coal consumers stormed the coal dealers in this city in mass formation Saturday in anticipation of the cold spell promised by the weather man. While there was some coal in the dealers' yards it was fast being exhausted Saturday afternoon.  
Some dealers reported coal received during the day and one retailer was so fortunate as to have two cars shoved into his switch in the afternoon.

Coal was carried away from the yards in all manner of vehicles, ranging from carts to motor trucks.

It was said by a dealer that the new coal priority list issued by the government would not visibly affect the coal supply in this city.

Lots of men who say they are looking for justice will find themselves behind the bars if they ever get it.

## GEORGE GREEN AGAIN IN TOILS FORGED CHECKS

Former Paint Township Farmer, Indicted Here, to Be Extradited.

Passed Bad Checks on Local Merchants—Has Been in Trouble Before.

George W. Green, aged about 48 years, for many years a well known farmer of Paint township, and who, during the past six years has often run afoul of the law, is under arrest in Omaha, Nebraska, and Saturday afternoon Deputy Sheriff A. C. Nelson left this city to bring Green back to answer to an indictment charging him with passing checks to which he is alleged to have signed his mother's name.

Green was indicted several months ago, but his whereabouts remained a secret until recently when it was learned that he was floor manager for a firm in Omaha, Nebraska, and after having extradition papers issued for his removal to this state, Prosecutor Harry M. Rankin wired the sheriff at Omaha to place Green under arrest and hold him until an officer could arrive to bring him back here for trial.  
Green is charged with passing a forged check for \$50 at C. A. Gossard's jewelry store, and another check for \$25 at Craig Bros. department store, both offenses being committed last June. Both checks bore the name of Mrs. Jennie Green, mother of George Green, who has since passed away.

When Green was wanted he could not be found. When his mother's funeral was held a deputy sheriff watched for Green, but he did not show up.

Green is said to have passed many other checks, one at Bloomingburg, and others in various towns, all said to bear his mother's name.

In fact, it is stated that when a local dealer went to the Green home he was informed by the mother that he had paid so many of the forged checks issued by her son George that she had decided to quit payment.

Last year Green's former wife, Belle Mann Green, was murdered in Dayton. The man has served a term in the Xenia workhouse for an offense, and has paid several fines for various escapades of an unsavory character.

## CHILLICOTHE AND GREENFIELD OUT

In the southern Ohio division of the State Basketball tournament being staged by Ohio Wesleyan University at Delaware, Chillicothe High was eliminated in their first game, with Portsmouth, 23 to 4. Greenfield had easy picking over Grove City in their first game and won 46 to 3.

In the second series of games Greenfield played Steel High of Dayton and was beaten by four points 16 to 12. The showing of the southern Ohio champs against Steele was exceptional.

Chillicothe and Greenfield are the only schools of the local circuit taking part in the tournament.

## HUSBAND IS FINED \$25 AND THE COSTS

Jess Shackelford, who was tried before Mayor Dahl Friday afternoon on a charge of assault and battery filed by his wife, was fined \$25 and the costs after the case had been taken under advisement by His Honor until late Friday evening.

Shackelford first entered a plea of not guilty but later changed the plea to guilty.

## ED HUTCHINSON BACK IN SCIOTO

Ed Hutchinson, arrested in this county on a serious charge filed in Scioto county, was removed to Scioto county Friday afternoon, a deputy sheriff from that county arriving late Friday afternoon and escorting the man back to Portsmouth. Hutchinson's wife returned with him.

## ADMINISTRATORS SELL AN ESTATE

At administrators sale Saturday afternoon on the courthouse step thirty-three acres of the Bert Chaffin estate was sold to Thomas Michaels for \$213 an acre. The land is located on the Greenfield pike.

## NO REDUCTION IN OATS CROP

(By Associated Press.)

Washington, March 6.—American farmers are not reducing their acreage of oats because of the rapidly increasing use of automobiles and trucks, on the theory that the horse and mule were being made a back number, according to a report by experts of the Department of Agriculture. They have made a special study of the situation and say:

"The number of horses and mules on farms, if decreasing is doing so at a rate so slow as to have little or no effect on the oat crop. Furthermore, statistics show that American farmers are not cutting down the total oat acreage but are actually increasing it. A great number of American farmers, particularly in the corn belt, are justified in making extensive sowings of oats each year."

## WILL HOUSE BIG BRITISH BLIMP

(By Associated Press.)

Cape May, N. J., March 6.—The English dirigible balloon, R-36, which the United States Navy purchased of the British government for \$3,500,000 will be housed at the Cape May navy yard air station. Work has been begun for the erection of a large hangar which must be completed within the next two months. A railroad line is being constructed to the site of the building in order that the 600 tons of material necessary for the hangar shall be placed on the ground speedily.

At the present hangar from which the C-5 went out on its disastrous trip last Spring, there is being put together under the direction of an Italian expert officer a new dirigible which is to have its trial trips in a short time. The regular complement of the flying station adjoining naval station is 400 officers and men.

## MARY SAYS SHE WILL NEVER MARRY

Los Angeles, March 6.—Mary Pickford will never marry again, but will devote the remainder of her life to motion pictures, according to an interview she gave here last night to the Los Angeles Times. This was the first statement she had made to the press since she was granted a divorce from Owen Moore Tuesday at Minden, Nevada.

## TEST SEED CORN IS ADMONITION

Considerable anxiety has been manifested over the seed corn manifested shown by the letters sent to the Ohio Experiment Station. This is due to the exceedingly cold weather throughout January, as freezing weather nearly always lowers the germination test of seed corn.

The situation is not so acute as during the spring of 1918 when much of the seed corn had been injured by early December, 1917, zero weather. At that time the moisture content

was so excessive that the freezing quickly destroyed the corn germs.

Seed corn stored last fall on the average had a low moisture content so that heavy freezing throughout the winter may not have done severe damage.

Careful testing of seed corn is the only way that farmers will be able to tell whether their seed corn has been damaged or not. Specialists point out that to conduct a complete test 6 grains should be removed from each ear and checked up, so that any ear showing a poor test or weak germination may be discarded.—Exchange.

## PAPER FAMINE REDUCES SIZE

(By Associated Press.)

Warren, O., March 6.—Owing to the scarcity of print paper the Warren Tribune was reduced to four pages and printed only a few classified advertisements in today's issue.

## TEACHERS GET WAGE INCREASE

DOVER — Dovers teachers were granted an increase in salary by the board of education. The schedule of \$600 to \$790 will be increased next term to a maximum of \$1000 and a minimum of \$800. Request of the New Philadelphia teachers for an increase was deferred to another meeting.

## THREE STILL ARE SEIZED

CLEVELAND—Three whisky stills and three alleged distillers were rounded up by police. One complete outfit in operation was found in the basement of the home of Samuel Berko, according to police, and another in the attic. Farcas and Aaron Korn, brothers, were seized for operating a still.

Contentment may be better than money, but it is equally scarce.

## The Bar of Public Opinion

CHIROPRACTIC the greatest health discovery of the twentieth century has been tried at the bar of public opinion and has received a unanimous verdict of approval. Men and women who at the start were skeptical as to the efficacy of this science, have become staunch believers in it when they have seen what it has done for their sick friends and neighbors. Ask your Chiropractors to tell you all about this drugless health method and find out by personal application how it will help you and revolutionize your whole life.

## What Chiropractic Will Do

We do not think the general public is concerned with what CHIROPRACTIC will NOT do but we know that it is vitally concerned with what CHIROPRACTIC WILL do. If you are sick and your sickness is caused by a pinching of the nerves in turn caused by a subluxation (displacement) of one or more of the vertebra (small bones) of the spine, Chiropractic Spinal Adjustments will restore you to health. This is done by putting the displaced vertebrae back in place, the pressure is then corrected and the vital force flows uninterruptedly to the various organs. There are no "ifs" or "buts" about this. It is just a plain, unexaggerated statement of fact. INVESTIGATE AND BE CONVINCED.

### TIGHT MONEY HALTS SALE OF FARM LAND

Columbus, Ohio, March 5.—Tight money here has interfered with the transfer of at least 500 farms, local real estate and building and loan men declare.

Arrangements had been made, in most cases, to close the deals March 1, and, in many instances, from 10 to 15 per cent of the purchase price had been paid.

Five men were disappointed in one deal cited by a building and loan manager. He said the farm has changed hands repeatedly and the entire set of owners gathered together to pass the money down the line. The last purchaser was unable to get the necessary funds from the building and loan, however, and all five buyers and sellers thus were disappointed.

Increases of 50 to 150 per cent in values are disclosed by those transfers, real estate men declare.

### TEAMS BREAK EVEN RECORD IS BROKEN

In two games rolled Thursday evening the Ortmann Motor Company and the Business Men No. 2 bowlers broke even. Business Men took the first 689 to 654; The Ortmann team took the

second by six pins, 647 to 641.

Business Men No. 1 had little trouble in defeating Coffman's men 683 to 620, and 817 to 568. The Business Men made the highest score of any team to date when they made 817 points in their second game. In setting this record the men rolled the following scores, C. B. Johnson, 125; Ellis, 198; Elliot, 156; Peddicord, 159; Cliff Peddicord, 188; the team averaged 150.

### MORE DAYLIGHT IN CIRCLEVILLE

At the last session of the city council in Circleville, an ordinance was introduced to fix Eastern time in Circleville from the first Sunday of April to the first Sunday of October each calendar year.

All public schools, public offices and legal proceedings within the city, the ordinance provides, shall go by the new time.

The ordinance provides that all clocks and time-pieces maintained at public expense, or upon public buildings owned by the city, be changed to conform with the "daylight saving" time.

### HUSBAND FACING CHARGES OF WIFE

On a charge of assault and battery preferred by his wife, Jess Shackelford was arraigned before Mayor V. J. Dahl Friday afternoon. The wife claimed that her husband had choked and beat her while the accused declared that he had taken measures to defend himself when the mother-in-law took a hand in the household quarrels, with a broomstick.

The matter was taken under advisement by the Mayor until later in the evening.

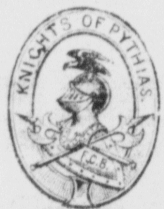

### ASSAIL ATTEMPT TO ALLY FARMER WITH RADICALS

(By Associated Press)  
Chicago, March 4.—The American Farm Bureau Federation today adopted a resolution denouncing the attempt to ally the agriculturists of America with the radicals of the industrial world.

The resolution adopted by the federation declares:

"We wish the American people definitely to understand that the organization styled 'The Farmers' National Council' has no authority to speak in behalf of the farmers of this country, and any and all efforts on the part of the 'Farmers National Council' to ally agriculturists of America with the radicals in the industrial world are here denounced."

Resolutions adopted provide bureaus on trade relations with foreign countries, on distribution of farm products, on legislative bureau, on transportation and a bureau on business organizations with authority to "set up without delay a business organization under direction of trained experts."

### CAPITALIZATION

Upon Completion of Present Financing

	Authorized	Issued
7 Percent Cumulative First Preferred Stock.....	\$1,500,000	\$600,000
7 Percent Cumulative Second Preferred Stock.....	1,500,000	691,900
Common Stock.....	1,500,000	691,900

There is no bonded indebtedness. Additional First Preferred Stock may be issued only under carefully drawn restrictions.

We summarize from a letter addressed to us by Mr. G. H. Mead, President of the Mead Fibre Company.

### PURPOSE OF THIS ISSUE

The purpose of this issue is to provide additional working capital and to make necessary improvements and extensions for handling the increased business.

### BUSINESS

The business of The Mead Fibre Company is the manufacture of soda pulp, which is a necessary element in the production of book, magazine, and other high-grade paper.

### MARKET

The entire output has been contracted for by the G. H. Mead Company, of Dayton, Ohio, the second largest distributor of pulp and paper in the United States. The greater portion of the output is sold to nearby mills in the Middle West, which is the natural market.

### HISTORY AND MANAGEMENT

The Mead Fibre Company was organized in 1920 to acquire the business and properties of The Kingsport Pulp Company, of Kingsport, Tennessee. The management has been in the hands of The Management Engineering and Development Company of Dayton, Ohio, since early 1919. This organization of skilled specialists has increased the production from 40 to 65 tons per day.

### EARNINGS

Earnings for the months of November, December and January have averaged in excess of \$15,000 per month, or at the rate of 4.3 times the dividend requirements of the First Preferred Stock outstanding. Contracts on hand indicate that this rate will be maintained.

### EQUITY

The appraisal of the properties by the American Appraisal Company and the audit of the books by Messrs. Barrow, Wade & Guthrie, Certified Public Accountants, show net tangible assets of more than \$330 per share of First Preferred Stock outstanding.

Both the Second Preferred and Common Stock outstanding have been paid for in cash at \$100 per share.

### DIVIDENDS

The holders of the First Preferred Stock are entitled to receive cumulative dividends at the rate of 7 percent per annum before any dividends can be paid on any other stock.

### SAFEGUARDS

There is no mortgage outstanding, nor can any mortgage or lien similar to this First Preferred Stock (except Purchase Money Mortgage) be drawn without the consent of 75 percent of the holders of the First Preferred Stock. If at any time four consecutive quarterly dividends are passed, the holders of preferred stocks will share the voting privilege equally with the holders of the common stock. No additional First Preferred Stock may be issued unless the net tangible assets are in excess of 200 percent of the par value of the then outstanding First Preferred Stock, plus the amount to be issued.

### SINKING FUND

Beginning December 1st, 1920, the Company shall pay annually into a sinking fund not less than 40 per cent of its net earnings after the payment of all dividends on its outstanding preferred stocks, provided however, that the allotment for any one year need in no case exceed 5 percent of the par value of the greatest amount of the First Preferred Stock outstanding at any one time. This sinking fund will be used for the purpose of retiring each year a portion of the First Preferred Stock at 110 and accrued dividend, unless said stock can be purchased for less in the open market.

All legal matters in connection with the issuance of this stock have been approved by Messrs. Corwin, Worman & Leach, for the Mead Fibre Company, and Messrs. Craighead & Cowden for the De Weese-Talbott Company.

WE RECOMMEND THIS STOCK FOR INVESTMENT

## BOND THEFT CONFESSIONS COME "WHEN THIEVES FALL OUT."

Above, Joseph Gluck, and at left Irving Gluck. Below, Nicholas Arnstein.

Confessions that they turned over to Nicholas Arnstein, sought all over the country as the "master mind" in the \$5,000,000 bond robbery plot in New York, at least \$2,300,000 worth of the bonds, have been made by Joseph and Irving Gluck brothers. The Glucks were indicted with Arnstein in the case. Arnstein is the husband of Fanny Brice, actress. Miss Brice, as she is known on the stage, has been examined by authorities regarding the bonds and all banks in New York City have been restrained from disposing of any bonds held by Arnstein or Miss Brice. The Glucks, in making their confessions, said that Arnstein "held out on them" after agreeing to divide the spoils with them.

## SALVATION ARMY WARNS PUBLIC ABOUT FAKERS

Requests Public to Turn Down All Solicitations Unless Backed by Local Organization.

No Solicitors Out But Many "Panhandlers" Have Been Fleecing Public.

Washington citizens will be interested in the announcement from headquarters of the Salvation Army that that organization has no solicitors in the field at present, nor has had for months, so that several so-called Salvation Army solicitors who have made the rounds of this city in recent months were fakers.

"The public should be warned against fake solicitors," declared Colonel Evans. "Hundreds of complaints have been received at Provisional Headquarters from all sections of the country to the effect that men and women, posing as Salvationists, are collecting money in the names of the Salvation Army. Some of these 'fakers' go so far as to wear uniforms similar in many respects to the regulation Salvation Army garb.

"Last year the Salvation Army discontinued promiscuous soliciting and substituted the modern machinery necessary these days for the national support of any large welfare organization. It became the national policy of the Army to discontinue house to house canvassing and street solicitations except at our street meetings and then only within range of the street evangelists' voice."

Any person soliciting funds in the name of the Salvation Army except where a building campaign is in progress and where a committee of local citizens has been organized to conduct the appeal for funds, is doing so without the sanction of the Salvation Army and is a "faker," Colonel Evans said.

## MORE DAYLIGHT IN CINCINNATI

Cincinnati, O., March 5.—A whirlwind campaign is to be made by the Chamber of Commerce to bring the matter of the proposed "More Daylight" legislation to a definite basis. With this object in view, President Edwin C. Gibbs yesterday appointed a committee consisting of Messrs D. C. Keller, Dr. Samuel Iglauer, A. F. Sommer, M. O. Heintz, C. C. Rose, M. L. Bangham, Howard Cox, George Eyrich and Harry McLaughlin to draft an ordinance on the subject of daylight saving. At the same time it was decided to place petitions in stores and other public places in various sections of the city for signatures, requesting a referendum on the proposed ordinance.
